

We are looking for a

Streaming Specialist (f/m/d)

You are a film buff and passionate about streaming video? You have expert knowledge and hands on experience in developing video encoding and packaging pipelines? You know your ways around building DRM-enabled players for various frontends from SmartTV, and Web down to mobile devices?

You love working in a small company with flat hierarchies and lots of room for new challenges?

Well - we have THE job for you. We are looking for a streaming specialist with the relevant developer skills to help us maintain and improve our entire video packaging and playout chain.

We are a small team with terrific and enthusiastic colleagues and our office has the best view to the Hamburg harbour - working from home is no problem too if you prefer the view there. And of course the job comes with a free pass to watch ANY of our movies and TV-Shows.

What do we do? We develop and operate our own Video-on-Demand infrastructure. We license feature films and TV-shows from Hollywood studios and independent studios and offer the content on our own platforms Maxdome and videociety. On top of that our infrastructure is used by our B2B partners - for instance Freenet Video, Post Luxemburg and others.

Your skills

VIDEO STREAMING SPECIALIST - EXPERT KNOWLEDGE IN

- Streaming Formats
- Streaming Player technologies and implementations (Web, SmartTV, Mobile)
- Encoding technologies and tools for VOD-Streaming

DRM EXPERT WITH HANDS ON EXPERIENCE IN:

- DRM formats (Playready, Widevine, Marlin, Fairplay)
- Encryption technologies and tools (Bento)

CLOUD EXPERT - HANDS ON EXPERIENCE WITH AWS (SETUP AND USING CLOUD INFRASTRUCTURE)

- AWS setup (S3, Cloudfront, EC2)
- Programming experience with standard web technologies (HTML, JS, Java, PHP, Frameworks, optionally C++)
- Fluent German language skills are a must

Your tasks

- Build and monitor Encoding- and DRM-Packaging Workflows in our internal asset management and workflow tool as well as on cloud infrastructure
- Adopt, develop and build Streaming players for Web Frontends on various devices (Browser, SmartTV, Mobile devices)
- Keep an open eye on technology developments for both existing and new streaming and DRM technologies

Additional tasks

- Monitor and set up technology infrastructure for VOD streaming platform services
- Main technical point of contact for external partners who wish to implement videociety's services
- Main technical point of contact for videociety's content partners for all questions with regards to platform security

Apply now

We'd love to hear from you!
